

# HABCO

*It Matters*

Serving the commercial and defense aerospace industries with engine and airframe tooling solutions, support and test equipment, as well as logistics and warehousing.

HABCO is the exclusive authorized supplier of commercial tooling for all Pratt & Whitney legacy engine programs, as well as all Pratt & Whitney Canada engine models and the Engine Alliance. All engine tooling is manufactured and guaranteed to meet P&W engine specifications.

HABCO is the exclusive supplier to provide support, sales, manufacturing and logistics assistance for Sikorsky, a Lockheed Martin Company, aftermarket Ground Support Equipment (GSE) – covering all commercial and military helicopters currently in operational use.

## ENGINE TOOLING

HABCO is the exclusive authorized supplier for commercial tooling for all **Pratt & Whitney** legacy engine programs, as well as all **Pratt & Whitney Canada** engines and the **Engine Alliance**.

## AIRFRAME TOOLING

HABCO has been supplying airframe tooling for major aerospace Original Equipment Manufacturer's (OEM's) and airlines for many years. **Sikorsky, a Lockheed Martin Company** has long counted on HABCO's airframe tooling for the UH-60 Black Hawk.

## SERVICE & SUPPORT

Our state-of-the-art technologies allows us to provide solutions of systems, products and services to the largest commercial and military aerospace companies in the industry. We also offer comprehensive service and support our customers throughout the lifespan of their equipment.

## GROUND SUPPORT EQUIPMENT

HABCO is the exclusive supplier of manufacturing, support, sales and logistics assistance for **Sikorsky, a Lockheed Martin Company** aftermarket GSE, covering all commercial and military helicopters currently in use.

## LOGISTICS & WAREHOUSING

Logistics and warehousing play a key role in the efficient delivery of information and inventory. HABCO's dedicated warehousing provides a centralized location for customer product as well as surplus inventory.

## SUPPORT & TEST EQUIPMENT

HABCO manufactures a wide array of products to support the commercial and defense aerospace applications of fuel, transmission and hydraulic carts, test stands, test kits and tire inflation safety cages.

## FAA REPAIR STATION

As a licensed **FAA Part 145 Repair Station #5HBR906C**, HABCO works with the largest aerospace and airline companies in the industry. We also offer comprehensive service and support to our customers throughout the lifespan of their equipment.
