# ENGINE TOOLING

HABCO is the exclusive supplier for commercial tooling for all Pratt & Whitney legacy engine programs that cover the JT3D, JT8D, JT9D, PW2000, PW4000 and PW6000 engines. Genuine OEM tools are manufactured to the same quality standards that Pratt & Whitney relies on for the assembly and maintenance of their engines.

At HABCO, we support airline and repair facility customers with a complete line of aircraft engine tools and ground support equipment (GSE) for a multitude of maintenance operation requirements.

- Line maintenance tooling
- Engine component test equipment (CTE)
